

Dear Borough Council,

As a small business owner here in Dormont, I urge you to support and protect green spaces and green practices. I see a connection between the success of my business and the borough having parks, green spaces, trees, and other attractive environmental features. These features attract residents, customers, and other responsible business owners into our town, all of which help local commerce and the economy.

I urge you to support green spaces and environmentally friendly practices by:

- **Protecting and enhancing the Hillsdale Passive Park** so that it can add value to our borough for years to come
- **Encouraging the creation of more green space**, planting of trees, and implementation of green practices
- **Supporting the efforts of residents** to improve green space by seeking grants and other opportunities for improvement
- **Remembering that green spaces add value to our town for the long term** by enhancing property values, improving business and attracting good neighbors.

- **Encouraging the creation of more green space**, planting of trees, and implementation of green practices
- **Supporting the efforts of residents** to improve green space by seeking grants and other opportunities for improvement
- **Remembering that green spaces add value to our town for the long term** by enhancing property values, improving business and attracting good neighbors.

I agree with this letter to the extent that if more public parking cannot be provided it should remain the way it is. Additional retail space will not benefit this area. Public Parking Garage or Lot will generate money for the Borough and would help keep the existing local business's successful.

Comments from Petition-Signers on Change.org

Name	City	State	Zip	SignedOn	Comment
amanda burns	pittsburgh	PA	15216	12/12/2013	dormont has so few trees in town. we could use a thousand more. also, i would love to see a ban on lawn chemicals in dormont. we have so many children, and we all live so close to each other.
Linda Simon	Waynesburg	PA	15370	12/12/2013	Looking for a house to buy in Dormont.
Gina Maggio	Pittsburgh	PA	15216	12/13/2013	I've grown up in this community and over the years instead of seeing the community grow, I've watched it go slightly down hill. We need to focus on what is best not only for this town, but also the environment.
karen larson	pittsburgh	PA	15216	12/13/2013	we need trees and green spaces for clean air and peaceful areas
Marian Luisi	Pittsburgh	PA	15216	12/13/2013	Nature is better than urban development
george larson	pittsburgh	PA	15216	12/14/2013	green is always better! This community is already crowded and congested enough. There are also existing storefronts that are vacant and available for businesses to use. No amount of tax revenue is worth the loss of the existing green spaces in Dormont.
Michael Bellini	Pittsburgh	PA	15216	12/14/2013	This community is already crowded and congested enough. There are also existing storefronts that are vacant and available for businesses to use. No amount of tax revenue is worth the loss of the existing green spaces in Dormont.
Michael Bellini	Pittsburgh	PA	15216	12/14/2013	This community is already crowded and congested enough. There are also existing storefronts that are vacant and available for businesses to use. No amount of tax revenue is worth the loss of the existing green spaces in Dormont.

Jane Howell	Pittsburgh	PA	15228	12/15/2013	We walk by that space and appreciate the way that it looks and what it does for our environment.
Toni Wilson	Pittsburgh	PA	15216	12/16/2013	We should be preserving green space that will bring beauty in our community for many, many years.
Marino Galluzzo	Pittsburgh	PA	15216	12/16/2013	Green space should always be a part of the community. It holds special value to the population.
Lori Brandt	Pittsburgh	PA	15216	12/16/2013	I feel that green spaces are important because they enhance the beauty of the neighborhood and give the community a place to meet and enjoy the area bringing attention to the store fronts and businesses.
Judith Jungling	Pittsburgh	PA	15216	12/16/2013	it's important to me because I want to live in a community that cares about the future of our earth and not just the bottom line.
James Kraus	Pittsburgh	PA	16216	12/17/2013	Both Allegheny Together as well as our developing new Master Plan support responsible GREEN SPACES!
Michael Athey	Pgh	PA	15216	12/18/2013	I am voting Dormont resident for the past 16 years and I find the green space at the corner of Hillisdale and West Liberty to be a wonderful thing that adds value to our community. Likewise, Dormont should be promoting additional green space possibilities within the borough,
Robert Dowie	Dormont	PA	15216	12/19/2013	Parks and green space can make a community more appealing and help maintain property values. It also has been shown that spending time in a green space has many health benefits.

Christopher Maggio	Dormont	PA	15216-187	12/22/2013	I grew up with Dormont Pool; let's see it become solar powered.
Darren Frederick	Dormont	PA	15216	12/30/2013	I was not happy when someone decided that a portion of the Hillsdale lots would become free parking for local residents. Then we even paved it for them. Now I heard it has become municipal parking as well. What's next? A parking garage? I'd rather have the whole space be green space.

Dormont Residents Believe in GREENING our Borough!

Dear Borough Council -- I am concerned that some members are expressing that Dormont residents do not care about "going green" based on the Comprehensive Plan, which included the feedback of only a small portion of residents. I urge you to support green spaces and environmentally friendly practices by.

- Protecting and enhancing the Hillsdale Passive Park so that it can add value to our borough for years to come.
- Encouraging the creation of more green space, planting of trees, and implementation of green practices.
- Supporting the efforts of residents to improve green space by seeking grants and other opportunities for improvement.
- Remembering that green spaces add value to our town for the long term by enhancing property values, improving business and attracting good neighbors.

Dormont Residents Believe in GREENING our Borough!

Dear Borough Council -- I am concerned that some members are expressing that Dormont residents do not care about "going green" based on the Comprehensive Plan, which included the feedback of only a small portion of residents. I urge you to support green spaces and environmentally friendly practices by.

- **Protecting and enhancing the Hillsdale Passive Park** so that it can add value to our borough for years to come.
- **Encouraging the creation of more green space**, planting of trees, and implementation of green practices.
- **Supporting the efforts of residents** to improve green space by seeking grants and other opportunities for improvement.
- **Remembering that green spaces add value to our town for the long term** by enhancing property values, improving business and attracting good neighbors.
