

MEMORANDUM

Date: October 17, 2014
To: President, Vice-President, Council and Mayor
From: Jeff Naftal, Borough Manager *JN*
Subject: Budget Update and Materials for Capital Improvement Workshop

BUDGET CHANGES FROM FIRST WORKSHOP:

The following is a recap of the alterations to the budget authorized by Council at last week's Budget Workshop on expenditures:

1. Restored Library funding to \$88,818.
2. Removed \$2,189 from Parks Capital Improvements Line Item as Council will be asked to fund this out of the 2014 Budget at the November 3, 2014 Council Meeting.
3. Adjusted the line item in the Capital Reserve Fund for Capital Purchase Major as this was funding for the Recreation Center masonry which has been completed and the waterproofing of the Borough building which won't be completed but will be carried over into the 2015 budget to complete.

A revised budget showing these changes is attached for your review. An additional revised budget will be presented at the third workshop on Revenues following inclusion or removal of any capital items as directed by Council at this workshop.

CAPITAL IMPROVEMENT NEEDS FOR SECOND WORKSHOP:

I have attached to this report a spreadsheet detailing staff's Capital Improvement needs for 2015 and beyond. These are broken down into six categories: Street and Alley Improvements; Streets Department; Parks Department; Recreation Department; Administration; and, Police Capital Improvements. I will address each category separately.

Category 1: Street and Alley Improvements:

As with last year, I asked our Streets Foreman to provide me with a list of our top 10 road improvement needs in the following areas: road reconstruction; road resurfacing; and alley maintenance. Road reconstruction involves completely taking the road down to its base and rebuilding it. This is the most expensive type of road improvement. Road resurfacing involves milling off the existing asphalt down to the rock and then adding a new layer of asphalt. Alley maintenance involves leveling, repairing and resurfacing the alley so that it becomes a more usable road. A number of our alleys require complete reconstruction which makes them more costly. Once these lists were generated, I asked the Borough Engineer to provide me with cost estimates for each project. Those costs are in the attached spreadsheet and I have also totaled the costs for each type of improvement as well as for all street and alley improvements.

I have again placed \$500,000 into the Capital Improvement Fund budget for the Road Program. I am seeking Council's input as to whether to leave that amount or increase it or decrease it. And then, depending on the amount of funding, decide how to allocate it among the various road improvement types. This year we did our top reconstruction on Texas Avenue, the pool parking lot, and a number of alleys throughout the west side of West Liberty Avenue. My suggestion for 2015 would be to resurface Potomac Avenue including using stamped asphalt for all crosswalks, resurface the Veterans Parking Lot which is in terrible condition, and then spend all of our remaining funds on as many alleys on the east side of West Liberty as we can do. Based on the attached listing, that should be 10 alleys.

Category 2: Streets Department:

Last year we bought a new backhoe, a vehicle lift and some other smaller improvements for the Streets Department. This year, they would like to replace their 1993 pickup truck which is requiring more maintenance each year. The average lifespan of a pickup truck is ten years so this is well past the time for replacement. I have also provided a list of their heavy equipment and when it would be due for replacement. The largest dump truck is past its lifespan but because of the size its cost is prohibitive at this time and we are simply making repairs as necessary. But at some point this will need to be addressed. Beyond that, the next major equipment purchase would not be until 2020 but the department will possibly need another pickup before then.

Category 3: Parks Department:

Last year we made a number of purchases for the Parks Department. The attached spreadsheet shows their major equipment requests for 2015 as well as other equipment which will be needed in the future. The largest item is a replacement Gator which is a small all-terrain vehicle that can serve multiple purposes within the department. Those items highlighted in yellow are budgeted for in 2015. The total requested for the Parks Department is \$10,035. There are also items in this department to address drainage issues and other improvements at Pop Murray Field.

Category 4: Recreation Department:

We did not purchase any major equipment for the Recreation Department this year. The one item we had budgeted was a kiddie slide at the pool but the budgeted number was insufficient to cover the actual cost once shipping and installation were added, which increased the price by about 50%. In 2015 we are budgeting for the slide again but with a turnkey price of \$9,110. We are also budgeting for wall mats for the Thomas Lloyd Recreation Center. One of the liability concerns we have in the Recreation Center is that the columns running down the center of the room are dangerous for the children using the room during summer camp. This is a hazard that we should and can address for a nominal cost of \$1,000.

Category 5: Administration Department:

There are no budgeted items for the Administration Department in 2015. The funding for the waterproofing of the Borough Building will be carried over from the 2014 budget as the work will not be done until the spring of 2015.

Category 6: Police Department:

The Police Department is asking for a replacement SUV and that vehicle is in the budget at a cost of \$35,000. They discussed this purchase with Council at the first budget workshop.

TEN YEAR CAPITAL IMPROVEMENT PLAN ESTIMATES:

The last document attached to this report is our first 10 year capital improvements schedule. This schedule will be updated and expanded as we develop more information related to the many repairs necessary to Borough facilities that were outlined earlier this year as part of Council's tour of our facilities. But for now, it includes those vehicles and other equipment that we know we will need to replace based on year of purchase and lifecycle replacement schedules. All costs are in current dollars. This can be used to identify needs moving forward.

Please let me know if you have any questions about this information.
